## Inside A/C by: Larry Weir

Mannheim Steamroller is back at it with "Teardrops, Raindrops" (American Gramophone) for a mega strong debut week. Jeff Liberman is making a solid showing with a second single "One More time" (JSL) that picks up a number of believers this week at AC40. The track featuring Kimi Hayes is taken from his "Love Is Worth The Blues" CD and picks up right where his last and current AC40 charter "Tell Me You Love Me" left off. Jeff is an amazing guitarist with a star studded history and his new discovery in Kimi Hayes really makes this a project to be "on the watch for". Another artist on an independent label that continues strong is B.K. Diaz and his "Alexa Marie" (BKDR). Closing in on the AC40 Top 10, the ballad that showcases this amazing talent who has performed and toured with the likes of REO Speedwagon to Iron Butterfly (just to name a few) as a session keyboard/vocalists, continues to build and grow strong. Another independent that continues to just blow everyone away is the latest from Sheer Bliss. Their "Picture Perfect Dream" is now in a "picture perfect" 3<sup>rd</sup> week and shows no signs of losing any steam till it gets to #1 as their last one did. "You can put that on the add list for us right away, it's a smash", said Devin Lewis from WTGA (Thomaston, GA). "We battled the song against Celine Dion's "I Drove All Night" and it won hands down", added music director Michael Barrett from WGMT (Lyndonville, VT). Among the many that are on board this week you can add some Pacific Northwest stations in Jeena Spain's KGY/FM in Olympia Washington and Ray Bartley's KLOG (Kelso, WA). Everclear looks to broaden their horizons with their latest single that has such a strange title, it can't possibly be ignored. "Volvo Driving Soccer Man" (Capitol) is the name and love it or hate it, this cut will get you and your listeners talking again. Craig David and his "Hidden Agenda" (Atlantic) is such a great song that we hope many of our AC stations will start picking up on it. Craig is an amazing talent and this track should move him notches higher in the Hot AC and Mainstream world.
